

THE BEST IN THE BUSINESS

Rosemead Oil Products, Inc. manufactures and distributes lubrication products throughout Southern California and around the world. Their clients rely on Rosemead's oils to meet or exceed engine oil quality standards.

When Rosemead President Richard Schoensiegel and Chief Financial Officer Russell Tracy decided to build a new facility for their business, they called Tom LaCroix, a long-time friend and banker to move the project forward. Just two meetings later, the financing was in place and the facility was built on time and on budget. Ever since, Rosemead has depended on LaCroix and his team for all of the company's banking and financing requirements.

"Tom and his great team have been terrific to work with throughout the years," said Schoensiegel and Tracy. "When he joined BEACH BUSINESS BANK, so did we. Tom and his banking team have been responsive and high-service in every respect. Thanks to BEACH BUSINESS BANK, we can focus on what we do best: sell oil!"
